**【Points to remember】**

- Because it is a response when evacuation information is issued due to heavy rain, it is necessary to judge whether to leave school or stay at school depending on the situation such as rainfall and flooding. Putting the safety of children first, we will take measures at the discretion of the school principal.
- Regarding the delivery of parents, consider the sibling relationship and confirm the delivery system for each school (junior high school district). In addition, we will thoroughly inform parents in advance and clarify the school's response.

**[About the after-school children's club]**

- When evacuation information is announced after attending school, the after-school children's club in the area where the evacuation information is issued will open. However, depending on the situation, ask the parents to pick you up early.
